Ka 'Ahahui Ho'ona'auao Hawai'i - The Native Hawaiian Education Council

I lāhui na'auao Hawai'i pono, i lāhui Hawai'i pono na'auao—There will be a culturally enlightened Hawaiian nation, there will be a Hawaiian nation enlightened.

The Native Hawaiian Education Council (NHEC) was established by Congress in 1994 and reauthorized as part of the No Child Left Behind Act of 2001. An additional component implemented under the Native Hawaiian Education Act established the Native Hawaiian Education Council and island council subsidiaries to coordinate, assess and make recommendations for the improvement of educational services and programs for Native Hawaiians. The 15-member statewide council consists of representatives from the county's mayor's offices, public education, and government and private grant-making entities providing education and related services and programs available to Native Hawaiians.

Nā Honua Maui Ola

Hawaiian Cultural Pathways
for Healthy and Responsive
Learning Environments

Nā Honua Maui Ola

Hawaiian Cultural Pathways for Healthy and Responsive Learning Environments

The first edition of the Nā Honua Maui Ola Culturally Healthy and Responsive Learning Environments was published in 2002 as a set of sixteen Hawaiian cultural guidelines with support strategies to assist —

learners, educators, families, schools and institutions, and communities — with a way to examine and attend to the educational and cultural well-being of all its learners.

The new edition takes the journey to the next step by framing nine cultural pathways or nā ala 'ike as an educational framework that fosters culturally healthy and responsive places of learning and living. The project brought together a broad spectrum of

expertise that included kupuna, teachers, administrators, teacher education, curriculum and program development specialists, educational policy advocates and research from multiple educational settings serving Native Hawaiian learners.

The foundational wisdom described in the nine cultural pathways is based on a broad collection of rich Hawaiian heritage and cultural experience. The cultural pathways

describe and honor the ancestral wisdom that is in practice throughout much of Hawai'i today. Nā ala 'ike is a framework for developing a comprehensive support system which promotes community and student-centered learning environments. They support experiences that foster and shape the development of learners to become responsible, capable, caring, healthy human beings in spiritual, intellectual, emotional, physical, and social ways. As a result, students will be able to better reach their full potential with a strong cultural identity and sense of place.

Nā ala 'ike supports culturally relevant approaches that also embrace learning through the Hawaiian language, culture, history, and tradition. The cultural pathways support state mandates that recognize Hawaiian as an official language of public education and foster efforts that revitalize the Hawaiian language and culture. This resource can be used in many educational settings, and will contribute greatly to the diversity of curriculum and teacher training and to the enrichment of schools, programs and cultural learning environments.
